

Coming Soon: The Portal Will Have a New Look and Features

Coming in March 2020: The Portal will have a New Look and Features

Salesforce, the application we use to host the Portal, is phasing out our current interface and moving to a more modern look and feel.

To prepare for the new user interface (and some new features we will roll out later in 2020), the **Multifamily Customer Portal** will be unavailable **March 20 to March 29**.

What should I do to prepare?

- **Plan ahead.** Work with your assigned Minnesota Housing staff to plan for the week the Portal is unavailable. Staff will still be available by phone or email while the Portal is offline.
- **[Download Google Chrome](#).** The recommended browser for the new user interface is Google Chrome. Learn more about [supported browsers](#).
- **Stay tuned for more information.** Watch for more details in the coming month, including new feature highlights and training resources.

Thank you for your patience and continued partnership while we upgrade our systems.
